## MADE BY MANY HANDS

Rooted in South Florida's vibrant culture of outdoor living, Pavilion has been crafting contemporary outdoor furniture from our Miami headquarters for more than 30 years.

Pavilion has cultivated a relaxed, modern aesthetic with products that perform in even the most demanding marine environments. With our lifetime guarantee on frames, best-in-class Marine Primer, and contract-quality outdoor cushions, Pavilion furniture delivers a premium outdoor experience you can enjoy for many years to come.

We are craftsmen and designers inspired by our city's dynamic use of space, from the social magnetism of Miami Beach to the green refuge of Coconut Grove to the reflective nature of the Everglades. Curious by nature, we see the outdoors as our very own playground.

# CONVIVIAL GATHERINGS

Dining outdoors with family or friends is one of life's simple pleasures, whether on a relaxing vacation, at your favorite restaurant, or in your own backyard.

Our commercial-grade dining chairs come in a variety of materials for withstanding the elements, while also providing comfort. With a wide range of dining, umbrella, communal, counter and bar tables to pair with them, Pavilion makes your ideal alfresco dining experience.

# LEISURELY PURSUITS

Whether taking in the view or reading a good book, a chaise lounge or daybed can be your own private oasis. Retreat further to the comfort of a cabana, where our chaises, lounge or dining furniture help cultivate deeper relaxation.

# CREATURE COMFORTS

Pleasant weather, an inviting place to lounge, and some good company are all you need to extend the comforts of home to the outdoors.

From plush lounge, rocking, and swivel chairs to settees, sofas, and sectionals, Pavilion creates the space for enjoyable outdoor living.

# DURABLE BY DESIGN

Serving hospitality, contract, and residential clients, Pavilion delivers commercial-grade quality and long-lasting finishes that withstand harsh climates and high-traffic use.

## QUALITY MATERIALS

To complement our durable furniture, Pavilion offers a range of premium materials that add depth, comfort, warmth, and character to our designs. Our considered aesthetic complements myriad landscapes and architectural styles, so your furniture investment has longevity.

## PREMIUM FINISHES

Our multi-stage finish process bonds our best-in-class—epoxy Marine Primer with an architectural-grade powder coat paint applied by hand in our Miami headquarters. This meticulous process protects our frames from water and oxygen, keeping rust or corrosion at bay. It also yields rich, dimensional color and texture in a range of warm and cool neutrals and metallics.

## PERFORMANCE FABRICS

Pavilion offers a curated selection of high-quality slings and outdoor fabrics that provide comfort, resiliency, and cleanability—as well as superior performance in colorfastness, strength, and resistance to stains, mold, and mildew. In addition to our fabric card program, we also welcome your customer's own material (COM).
