## CONSTRUCTION

**Frame:** Constructed from high quality, pure aluminum alloy, frames are coated in our Marine Primer and finished in an architectural-grade powder coat, creating a rich, dimensional color.

**Marine Primer:** A proprietary spray epoxy basecoat seals out oxygen and prevents corrosion.

**Hammock Sling:** Featuring a more relaxed seat tension, Hammock Slings are applied to the frame with more slack than our standard slings, providing more "give" when seated. The fabrication is fixed at a specific tension level and cannot be adjusted over time.

**Comfort Cushion Sling:** Combining the added softness of a cushion with the low maintenance of a mesh sling, our Comfort Cushion sling can be easily removed and replaced by the customer.

**Stacking:** Chaise lounges stack up to 8 high.
