CONSTRUCTION

Frame: Constructed from high quality, pure aluminum alloy, frames are coated in our Marine Primer and finished in an architectural-grade powder coat, creating a rich, dimensional color.

Marine Primer: A proprietary spray epoxy basecoat seals out oxygen and prevents corrosion.

Standard Slings: Woven from high quality PVC yarns, our mesh slings are comfortable, resilient, and low maintenance. Providing superior performance in colorfastness, tensile strength, and abrasion resistance, slings also feature a built-in antimicrobial ingredient allowing them to stay cool, dry quickly, and resist mold.

Comfort Cushion Slings: Combining the added softness of a cushion with the low maintenance of a mesh sling, our Comfort Cushion sling can be easily removed and replaced by the customer.

Ecowood: Produced from a high-density polymer using recycled materials and sustainable manufacturing methods, Ecwood provides warmth and texture through its wood grain aesthetic. Engineered for diverse weather conditions, Ecwood will not corrode, splinter, or rot, and requires no sealing or painting.

Stacking: Dining and side chairs stack up to 6 high.
